Understand The Providence Of Restoration Through Indemnity

Sun Myung Moon

July 14, 2010

East Garden, NY

Hoon Dok Hae

Unofficial notes: Michael Jenkins

Note: These notes are taken from a simultaneous translation. Simultaneous translation is done in summary form and depends greatly on the translator's ability to communicate the essence of the message. These cannot be published as definitive texts and should never be used in the future as an "official" publication on Rev. Moon's words. However they do provide a good idea of the "spirit" of the message.

We must understand the providence of restoration through indemnity. We have to understand the pillar of the Principle that stands at the center. I have stood at the center of this process.

I want to see how all the races and all of humanity can come together in peace and create a place for God to settle permanently on the earth. The result is connected to this. Everything in this world and this final settlement can never be changed. Human beings who are descendants of the Fall cannot find better words than this.

Anyone who is confused about this must be educated. This has to be resolved by people who are willing to give their lives. Everything should come together joyfully and live in harmony. If you don't go this way while on earth you will be left to wander in the spirit world, destined to try to come back and fulfill in spirit which is infinitely more difficult.

You need to create a mind and heart that is one with God. Each of us has a responsibility to liberate God and each of us has a responsibility to go this way. God is our Father. He is the model being of this earth. We must understand this. I don't need to explain in long words anymore; I have given you text books for this. Please understand that and recognize how precious this speech is.

The human body is one of balance and everything has a pair. Odd numbers represent the imbalance. Adam and Eve must be able to stand up again. This is the principle. God's purpose will be fulfilled no matter what.

(Next, page 84 of the 10th book of the sermons of Rev. Moon, given in July of 1960 was read).

God has grief? How can this be? If He is the creator of all how can He be grieving? There needs to be a nature that can absorb all this grief at once.

We had to overcome the communist theory and the material theory. My speeches from this time were well organized. There is nothing that you cannot find an answer to. I'm already over 90 years old and the world knows this. Have you ever really supported me? You have been following, but not really supporting. You need to understand clearly about the subject being. You haven't been confident to even guide your own course. You cannot only dream that your course will go this way.

Mr. Furuta, why are you here? You didn't come when I arrived in America. I trust you. You must not go the wrong way. Do you pledge to follow me? (Yes)

Compare what I'm speaking about with what I'm doing. Chung Hwan Kwak and his son — what's his name — he will disappear. Those who opposed me have all gone away. You have no idea what kind of place this is.

Wait and see. In 3 years you will see how the way I'm going will change everything. Do you think you can just sell things that are of God's property? This is a confusing time. You must pray and really understand the way to go. What I'm doing is not just a joke. You think I'm just claiming to know these things?

In America we say Good Morning, which sounds like Gum Mawnee, similar to "Are you hungry". In the morning how do Koreans greet? They say: "Did you have breakfast?" This shows their history has been so tragic that they suffered and didn't have food.

God will not keep silent anymore. If we make the proper condition, God will not be silent anymore. If I take the right step, Satan cannot come along with me. When I step back, Satan will have to step back. Every foot step that I'm making is something significant.

I'm waiting for the time when I can really say goodbye to America. When you read my Autobiography you will understand what I have been doing. If you challenge me you will end up losing.

The elections were a success for God in Korea this time. Even Kim Jong Il will have to attend True Parents. God is with me right now. We have God in front of us right now. Since Mother is with us there is a certain order. Here in America we see more colors here. Unification Church is beautiful this way. If you are not doing a good job you will be kicked out. If you are not doing the right thing you will be in trouble.

I am the embodiment of the word. Chang Shik Yang, are you the representative of America? Many times you criticized and judged me with your own ideas. Did you really applaud me and follow me or was it a show? You need to know what path we must follow. I want to take you Americans with me into the Kingdom. Even Jesus is only in Paradise and couldn't go to the realm of Heaven.
