Hoon Dok Hae

Cheon Hwa Gung in Las Vegas

Note: These notes are taken from the web page Unificationism and (or) a Peace TV video clip. They cannot be published as definitive texts and should never be used in the future as an “official” publication of True Father’s words. However, they do provide a good idea of the “spirit” of the message. Rev. Katsumi Kambashi

Rev. Yang made a report on our activities in Las Vegas.

“The Hoover Dam was constructed in the early 1930’s and 5,000 people worked in three shifts every day to complete it. The city where the dam is located at is called Boulder City. Las Vegas City has 900,000 people, and from the Cheon Hwa Gung towards the south there formed a new city called Henderson City which has the population of 300,000. Towards the north, there is North Las Vegas. Therefore, there are four cities in this area which has a total of 2 million people. The area was developed greatly when casinos came in and later in the 80’s it became the international city for family resort and convention center.

In the area, there is not only the Hoover Dam, but also the Grand Canyon, Bryce canyon, Zion Canyon, and Sedona. Father sees many possibilities in this area that have room for development. I have heard that the Disney Company has purchased a huge land close to the Hoover Dam.”

The following are some of Father’s words after the report.

“China believes that nobody can beat her since she has an ideological foundation. China believes that with a suitable environment outside of it, she can naturally become the center of the world. What China is trying to establish is the bank system and the media in the world.”

“We must develop the ice world called the North and the South Poles which humans could not touch until now and utilize the natural resources there. Who will win a championship of traveling to the North and the South Poles? ”

“Infinite Cold (absolute zero) is 273 °C, and it cannot be colder than that. Ice is formed within that degree. Due to global warming, water is an issue for human beings.”

“Where is Jeong Ok Yoo? (He went to Sedona) We must make our foundation there. Sedona is the central point of this area, which is the most artistic in nature and is famous for producing Ki (energy) from earth.”

“The God of Night and the God of Day were split, and consequently, human mind and body were split. To resolve the problem (of the split mind and body), this (which is the split between the God of Night and the God of Day) must be resolved. We must know about God. The God of Night, not being in the air alone, must be one with humans.”

“Chang Shik Yang, where does the air live? (Air?) The air lives in the space. When the air is emptied, the air comes from the space and then it evens out. Then the air will not move. What is true love? There is no true love which is for the sake of oneself. When one continues to give and is emptied, God will always fill it to balance the whole universe, even humans do not know that.”

“You cannot be open to the spirit world if you feel hungry while fasting. When you don’t feel hungry for 40 days or

120 days receiving spiritual nutrition, you can be open to it.”
