Note: These notes are taken from a video clip of the web page Peace TV. This translation cannot be published as definitive texts and should never be used in the future as an “official” publication of True Father’s words. However, they do provide a good idea of the “spirit” of the message. — Rev. Katsumi Kambashi

“I do not like (the term) ‘the Second Messiah.’ But one thing you have to understand is the term ‘True Parents’ will not be able to be changed by anybody even for millions of years, which is like an eternal treasure. Though there are all kinds of parents, the title of True Parents cannot be stolen away because nobody has such a foundation. Nobody understands the philosophy of love more than I do.”

“The Seunghwa Ceremony is not something one holds after death, which should be done from the time they are conceived in the womb. People do not know it. Even the Creator could not do that, and I have to correct that.”

“I have already proclaimed that God’s homeland is Korea. What did I say Korea is? (God’s homeland) Why so? Because there are True Parents (from Korea). Who are they? Fallen parents ruined the God of Night, the God of Day and the world. But with the name of True Parents, the world can be revived, and going beyond the providence of restoration, we can enter the era of natural and adaptational returning. The word __ can be found in my speech. When you read this (speech), you don’t know what it means.”

“Blessed families want to have this photo. It says (on the photo) May 26, 2011. and I wrote here ‘Heaven.’ (It seems he wrote it in a opposite way. I am not sure if he wrote it in Korean or Chinese character.) You do not know why I wrote it this way, do you? You do not know why I wrote this in a opposite way. You will not know it even if you study it for a thousand years.

After he explained more about what he wrote at the bottom of the photo

Once you have this photo, you can be registered in heaven and earth.”

“Lucifer means ‘Several kinds of seeds bear fruit.’”

“7 + 8 makes 15, and 7 x 8 makes 56 which are beyond the boundary. 7 x 7 makes 49 and it does not go over the summit of the number 50.”
